

March 9

ASH WEDNESDAY

A friend of mine is therapist – a fine, ethical, caring skilled *healer*. For healing is what the Greek word forming *therapy* means!

At the end of an extended set of marriage counseling sessions, he offers couples a coupon – for a “Free Tune-Up” in one year. They receive a free session from this expensive man – a check up, to see that everything is running well.

Each year we have the opportunity for a free tune-up. Lent is a time of reflection, repentance – and making things right.

Right with God, right with people, right with situations.

Can't get the car fixed unless you take it in. Can't have an objective outside party checking on your relationship unless you go in.

Come on in to this devotional – it's a bit more than a month of check-ups, making sure things are right. Then doing the necessary repairs. It is truly healing.

Rev. Mary Hubbard

P.S. Attend Ash Wednesday Service at Noon or 6:30 p.m.!
