

April 21

In our family, Easter represents hope for the future and joy in our lives. It is a celebration of life and a time of new beginnings. With the arrival of spring, Easter is a time to rejoice. It is a time for renewal: flowers are getting ready to bloom, grass is greening, trees are budding and the air begins to warm.

After a long, cold, dark winter, Easter lets us know that warmth and light are returning. We are renewed and enlightened by God's blessings in our lives.

Easter is the most joyous of times.
